LUXAFLEX® ROLLERSHADES

LUXAFLEX® ROLLERSHADES offer the ultimate in traditional value, style and hard-wearing durability. Using premium grade components, LUXAFLEX® ROLLERSHADES are custom-made to suit your individual requirements. Operate your ROLLERSHADES with ease. Control options including the classic standard chain drive, chainless spring motor or fully automated systems are available. Whether you want to blend a window into the background or make it the feature of a room, it's so quick, easy and affordable with LUXAFLEX® ROLLERSHADES.

The beautiful LUXAFLEX® ROLLERSHADES Fabric Collection provides you with the ultimate colour and style from plain to textured, in a range of translucencies from light filtering to block-out. LUXAFLEX® fabrics are designed to suit your light, glare, heat and privacy needs, with a range of fabric features including SANITIZED® for those sensitive to dust mites and odour or DURAGUARD a repellent for most staining agents. Whichever fabric you choose the exclusive use of ultrasonic cutting technology will ensure fabric edges are sealed to enhance the performance and longevity of your LUXAFLEX® ROLLERSHADES.

FABRIC COLLECTION

BOTTOM RAIL

LUXAFLEX® bottom rails are manufactured from extruded aluminium with a heavy duty powder coated finish that is available in a variety of colour and design options. These options provide the finishing touch to your blinds while being an integral design feature. The bottom rails are designed to provide both weight and rigidity to the fabric. This results in the fabric hanging flatter in the window and also contributes to the roll up performance of your LUXAFLEX® ROLLERSHADES.

Colour Options: White, Black, Ivory, Pearl, Bronze and Anodized Silver.

ELLIPTICAL BALANCE BOTTOM RAIL

The LUXAFLEX® ELLIPTICAL balance bottom rail features a sound proofing bumper with a 60% increase in weight, ensuring your fabric hangs and rolls very straight – meaning your blind looks great and lasts longer.

OPERATING OPTIONS

CLASSIC CHAIN DRIVE

With its classic design and simple appeal, the chain driven ROLLERSHADE is a practical operation with unobtrusive style in any home. Providing you with a versatile, easy operating blind, which allows you to raise and lower your blinds by means of a chain from either side and can be face fitted or in-reveal mounted. Chains available in colour coordinated and metal options.

LINKED ROLLERSHADES

LUXAFLEX® ROLLERSHADES can be purchased in wider dimensions with the new linked roller blind system, which gives you the ability to operate blinds with the one control. Ideal for applications such as bifolding doors.

AUTOMATION

Automated LUXAFLEX® ROLLERSHADES combine flexibility and convenience for enhanced internal comfort and control. The automated ROLLERSHADES incorporate European designed and manufactured motors and remote controls, providing silent movement of the blinds.

TWIN BRACKET ROLLERSHADES

Twin ROLLERSHADES allow you to combine the functionality of two different fabrics translucencies in the one ROLLERSHADE system offering flexibility to adjust both light levels and night time privacy in the one application.

SPRING ASSIST OPERATION

The LUXAFLEX® new spring assist mechanism employs a booster system which is fitted directly onto the ROLLERSHADE chain control. This operation ensures smooth and light operation of larger blind sizes and weights.

CHILD SAFETY

Child safety is a critical issue and one that we have addressed with the availability of child safety devices as options on your blinds. We continually monitor standards to ensure our LUXAFLEX® products comply with applicable safety standards and are safe for you and your child.

Twilight: Max blind size 2000 x 3000mm

Atmosphere: Max blind size 2800 x 3000mm

*Selected colours now available in 2800mm

FABRIC FEATURES AND BENEFITS

You can benefit from special ranges of LUXAFLEX® fabrics

SANITIZED® fabric treatment inhibits the growth of bacteria, fungi, dust mites and odour, welcome news for those with respiratory issues.

FIRE RETARDANT gives you extra peace of mind, it has been carefully formulated so it does not affect the texture and feel of the fabric.

DURAGUARD® exclusively developed for the rigours that blinds have to face. The fabric will repel most staining agents. It is much easier to clean and keeps its pristine look for longer.

OEKO TEX CERTIFIED is a testing certification to ensure products all meet the requirements for the exclusion of harmful substances.

TEFLON® FABRIC PROTECTOR provides long lasting protection against oil and water based stains, as well as dust and dry soil. The fabric is easier to take care of but does not affect the colour, breathability or texture of the fabric.

LUXAFLEX® ROLLERSHADE fabrics are manufactured to withstand Australasian conditions.

COMFORT RATING GUIDE#

- Heat Protection refers to the ability of material to keep heat away.
- A high insulation rating is recommended where insulation is important for the comfort of the occupants and to reduce heating or cooling costs.
- Shade Factor is defined as the level of shade that the blind provides in blocking out the direct sunlight.
- Glare Reduction is defined as the reduction in the level of glare to provide optimum eye comfort.
- UV Protection is defined as the level of UV light that is blocked out by the material.
