## FINALLY THERE IS AN ALTERNATIVE WOOD THAT LOOKS LIKE TIMBER

Luxaflex® Woodmates® the alternative wooden blinds that look and feel like real timber. Made from 100% polyresin, using a manufacturing process that makes the slats more rigid and durable, this attractive wood grain effect provides the look of wood.

The slats are resistant to heat and humidity and are UV protected. They will resist warping, chipping and cracking. With a choice of two slat widths, 50mm and 64mm and an attractive matching valance.

The colour range includes a palette of whites and neutrals; this is complemented by a timber look with natural wood grains. The variety of choice, offers you a colour that will complement any decor.

Luxaflex® Woodmates® are equally at home in your living room, as well as high-humidity areas like bathrooms, laundries and kitchens.

### OPERATION

High quality operating hardware allows you to raise and lower the blinds, as well as easily control light, by tilting the slats at different angles. To lower the blind simply pull the lift cords to the centre of the blind and then carefully release the tension. To raise the blind, pull the lift cords to the centre of the blind and lock them at the desired height by pulling the cords back below the cordlock. Tilt the slats with a cord-operated tilt gear or by using a wand connected to a tilt gear.

### CLEANING

The composition of Luxaflex® Woodmates® means they are easy to clean using one of the following methods: feather duster, vacuum cleaner with brush attachment, damp cloth with mild detergent.

### COLOUR RANGE

White\*

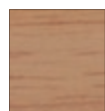

Antique White\*

Cream\*

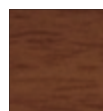

Bamboo

Maple

Cedar\*

Pecan\*

Mahogany

Chestnut\*

Black Ash\*

\*Are also available in 64mm slates.

## SLATS

Luxaflex® Woodmates® slat is made from 100% polyresin, making a slat that is rigid and durable, yet lighter than other alternative wooden slats, making a blind that is easier to raise and lower. The slats are resistant to heat and humidity and will resist warping, cracking and chipping. They are UV protected and will not fade or deteriorate.

### 50mm slats

The standard 50mm slats are available in 10 colours. The smooth satin finish easily co-ordinates with the existing woodwork in your home. Maximum window size: 2400mm (width) x 3000mm (height)

### 64mm slats

The larger 64mm slat is available in 7 colours, with a smooth satin finish, perfect for the larger window. Maximum window size: 2400mm (width) x 3000mm (height)

### Valance & bottom rail

Luxaflex® Woodmates® blinds come with a matching attractive 84mm valance to hide any light gap, and a trapezoid Bottom Rail for improved closure.

Slat available in 50mm and 64mm

## FEATURES AND BENEFITS

### Ideal substitute for natural wood

The perfect alternative for consumers who want the look and feel of wood, combined with the performances of polyresin.

### Resists cracking, peeling, fading and warping

A special UV coating keeps your Luxaflex® Woodmates® blinds looking great even in humid conditions for uncompromising beauty.

### Perfect for bathrooms

The unique structure of Luxaflex® Woodmates® blinds won't absorb moisture, so you can place them in areas where wood blinds are unsuitable.

### Can be automated

Ease of operation for customers, along with being the best form of child safety.

### Infinite light and privacy control

Like all venetian blinds you can open and close your blinds to any position, giving you perfect control over light and privacy.

### Components

High quality materials will give you a reliable blind for many years.

### Installation

Luxaflex® Woodmates® blinds can be mounted onto a window frame or into a recess, with easy installation and removal.
