## ENJOY THE NATURAL BEAUTY OF TIMBER WITH LUXAFLEX® COUNTRYWOODS® TIMBER VENETIAN BLINDS

If you appreciate the look and feel of natural timber, then Luxaflex® Countrywoods® Timber Blinds are the perfect choice. Timber Blinds provide a variety of grain patterns and natural colours within each length, these variations are part of the appeal of using natural timber. Luxaflex® Countrywoods® Timber Blinds are also available in e-cote lacquered or painted finishes.

The Countrywoods® Timber Blinds collection is available in a variety of colours with the option of 25mm, 46mm and 60mm slats, and colour co-ordinated components. Luxaflex® Countrywoods® Timber Blinds lend themselves to many interior styles from country, colonial or contemporary; providing light and heat control, whilst adding style and value to your home.

### COLOUR RANGE - PAINTED FINISHES

White Frost Chalk Bone Sandstone

### **e-cote® UV** **quality lacquer finish**

Luxaflex® Countrywoods® Timber Blinds can be custom finished with 'e-cote UV' a revolutionary acrylic lacquer coating that offers the highest UV resistant properties available. 'e-cote UV' paint is cured in UV ovens to produce a hard, durable and extremely smooth finish; fading is inhibited by using automotive pigments in the paint. 'e-cote UV' coated products are suitable for use in damp areas such as bathrooms but are not recommended for continual immersion in water. (E-cote UV not available in 25mm slat). The e-cote has a five year warranty on the coating.

### COLOUR RANGE - STAINED FINISHES

Natural Clear Light/Medium Medium/Dark Random Light Random Dark Baltic Pine Jarrah Walnut

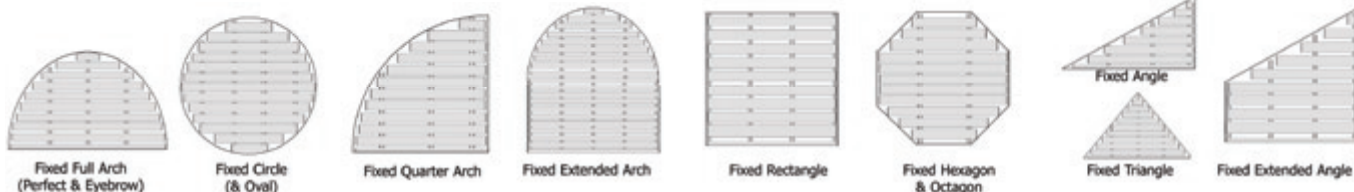

Note: Colours are as accurate as the printing process allows.

## SPECIALTY SHAPES

Countrywoods® Timber Blinds offer a variety of fixed shapes. Fixed shapes are fixed at a 45° angle.

Fixed shapes:

### 25mm SLATS

The standard 25mm slats are available in two paint and four stain finishes (see your Luxaflex® stockists for colour options). The smooth satin finish easily co-ordinates with the existing woodwork in your home. Maximum window size: 2400mm (width) x 2600mm (height).

### 46mm SLATS

The medium 46mm slat is available in five paint and eight stain finishes, with a smooth satin finish. The 46mm slat is coated using the 'e-cote UV' acrylic lacquer coating. Maximum window size: 2700mm (width) x 3000mm (height).

### 60mm SLATS

The larger 60mm slat is perfect for the larger window and is available in five paint and eight stain finishes. The 60mm slat is also coated with the 'e-cote UV' acrylic lacquer coating. Maximum window size: 2700mm (width) x 3000mm (height).

### HEADRAIL

The headrail shall comprise of a zincalume u-section, with a stove-enamelled coating in a co-ordinating colour. It will not undergo any deformation when mounted in accordance with the installation instructions. The headrail contains the entire control mechanism. This is covered with a flat wooden fascia, fixed in place with the aid of brackets. End returns area available for outside or face fitting blinds. Headrail measures 25mm x 25mm and uses a 25mm fascia attached by velcro.

### CORDS AND TAPE

The cords and tape are made of UV and water resistant polyester. The spacing of the ladder tape supporting the slats shall be uniform and shall permit the sufficient overlap of the slats to give satisfactory closure of the blinds. All the cords are 2.3mm thick, match the colour of the timber and are provided with colour co-ordinated wooden tassels.

E-cote UV lacquered Timber, Dark	◆◆◆◆	◆◆◆◆	◆◆	◆◆◆◆	◆◆◆◆
Timber, White	◆◆◆◆	◆◆◆◆	◆◆	◆◆◆◆	◆◆◆◆
Timber, Brown Mahogany	◆◆◆◆	◆◆◆◆	◆◆	◆◆◆◆	◆◆◆◆

◆ No protection/performance, ◆◆ Low level of protection/performance, ◆◆◆ Medium level of protection/performance  
 ◆◆◆◆ High level of protection/performance, ◆◆◆◆◆ Highest level of protection/performance

The comfort rating is designed to assist you in choosing the right window covering for each situation. Hunter Douglas Limited has developed the comfort rating with assistance from Canesis Pty Ltd – an independent Australian Fibre and Textile Research and Development Company.

-  Heat Protection refers to the ability of material to keep heat away.
-  A high insulation rating is recommended where insulation is important for the comfort of the occupants and to reduce heating or cooling costs.
-  Shade Factor is defined as the level of shade that the blind provides in blocking out the direct sunlight.
-  Glare Reduction is defined as the reduction in the level of glare to provide optimum eye comfort.
-  UV Protection is defined as the level of UV light that is blocked out by the material.

# COMFORT RATING has been devised by Hunter Douglas Limited with the assistance of Canesis Pty Ltd - an Independent Australian Fibre and Textile Research and Development Company.

## AUTOMATION

Luxaflex® Countrywoods® Timber Blinds can be easily automated for the ultimate in luxury and convenience. Full raise, lower, open and close functions are available with wall mounted, hand held remote or sensor / timer controlled operation.

## CLEANING

The composition of Luxaflex® Countrywoods® means they are easy to clean using one of the following methods: feather duster, vacuum cleaner with brush attachment, damp cloth with mild detergent.
