IFTTT

Prior to IFTTT use...

- Ensure Google Assistant has been programmed and is operational.
- Ensure the Connexoon Window RTS device has scenes or ambiances programmed.

Note: Each Connexoon Window RTS user can have a maximum of 8 scenarios (4 modes and 4 ambiances)

1 Download the IFTTT app or access the IFTTT website https://ifttt.com
2 Open the IFTTT app and select Use Email to sign in.
3 Enter your email address and select Continue.
4 Select Get more at the bottom of the screen to add your Connexoon Window RTS to the IFTTT account.
5 Type “Connexoon” in the search bar and click Search.

6 Ensure the Services tab has been selected in the search results. Select Connexoon Asia & Oceania.

7 You will find applets proposed by Connexoon Asia & Oceania.

8 Select the applet for Google Assistant to connect.

9 Swipe right on the Connect button.

10 Sign in with your Google login details.
11 **Allow** IFTTT to access your Google Account.

“Open in IFTTT?” pop-up appears. Select **Open** to proceed.

To return to main screen, click the back arrow in the top-left corner and clear the Search field.

12 **Enter the email address and password used for your Connexoon Window RTS login.**

13 **Authorise** IFTTT compatibility with your Connexoon Window RTS.

“Open in IFTTT?” pop-up appears. Select **Open** to proceed.

To return to main screen, click the back arrow in the top-left corner and clear the Search field.
Activate Google Assistant voice control Applet

- Follow the next steps to activate existing Applets created by Connexoon Asia & Oceania.
- To create a new Applet, move to step 18.

14 Under your home page, select Google Assistant. This will display all available Applets you’ve created.

15 Scroll through the list of pre-defined Applets to select the one you wish to activate.

16 Select the Applet chosen to see the services used. Then swipe right on Connect.
Enter the details in the Applet and select **Save**. Your customised Applet has been created.

Choose the **phrase** which will launch the scene or ambiance.

Optional phrases which will also launch the scene or ambiance.

Select the **Connexoon Window RTS scene** or **ambiance** to be launched.
Create a new Applet

18. On your home page, press Get more. Then select IfThisThenThat, situated underneath the search bar.

19. Select + This.

20. Search and select Google Assistant.

21. Select the type of trigger to activate the Connexoon Window RTS.
22 Enter the phrase to trigger your Connexoon Window RTS. Select **Create trigger**.

23 Select **That**.

24 Search for "Connexoon". Ensure you select **Connexoon Asia & Oceania**.

25 Select **Launch a Connexoon scenario**.

26 Select the Scenario you wish to launch from the drop-down menu. Select **Create action**.
27 The Applet has been created, select **Finish** to save.

28 The Applet can be viewed when selecting **Google Assistant** on your home page.
